## CHI FLOW-CY 106L

WITH MULTI-SPEED COMPUTER PROGRAM

The **CY-106L Chi Flow Swing Machine** is an effortless aerobic exerciser that oxygenates the body and revitalizes the *CHI* through a snakelike action, which is exerted on the spine while in a supine (lying on the back) position. *Chi* is the Chinese word which refers to the life force or life energy.

### Spinal Influence on Health

The Chi Flow Machine exercises the spine, which is the central control for the autonomic nervous system and the parasympathetic nervous system. These systems are responsible for the body's nerve functioning. The Chi Flow Machine works to remove any impairment that will cause the blockage of *Chi* in the body.

*Are You Suffering  
From Oxygen  
Deficiency?*

### Utilization of Full Spinal Movement

The design of the Chi Flow Machine allows for sideways "snakelike" movements that serve to relieve vertebrae joint pressure, and thereby promotes greater well-being. By increasing the flow of *Chi* in the body, the amount of stress on the spine created by body tension and rigidity can be reduced. Spinal movement is increased, allowing for greater flexibility and more vitality in the body.

### Lymph Fluids Influence On Health

The Chi Flow Machine effectively circulates the body's fluids and aids the Lymphatic system. This is especially beneficial to those who are physically challenged, or those who do not get sufficient exercise. This cleansing helps promote good health. The increased flow of *Chi* also helps to revitalize the user.

### Oxygenating The Body

The Chi Flow has the ability to oxygenate, tone and strengthen the body. It increases the vitality of the user, that is, it raises the *Chi* in the bodies of those who use the machine on a daily basis.

\* If you are not satisfied with the Chi Flow, return it within 30 Days and a refund for the purchase amount plus applicable taxes will be issued. Credit will not be issued for freight charges.
