

Regency Elite™ Specifications

Item	Description
pH Adjustments	4 Levels Alkaline or Acid plus Purify Only Selections
Water	Source: Municipal Treated Supply
	Flow Rate: 2 - 3 LPM
	Operating Pressure: 4 - 70 PSI
Electrodes	Platinum/Titanium 15 - 20 Year Life Span
	Automatic Clean Cycle Upon Startup
Filter Features	Replaceable Easy Change Cartridge
	Approximately 6 - 12 month Life Span
	Digital Filter Indicator
	Tourmaline and Calcium Beads
	Silver Activated Granular Charcoal
Option	Standard - 0.1 Micron
Option	Ultra-fine Hollow Fibre 0.01 ~ 0.001 Micron
Dimensions	14" H x 10.5" W x 5.5" D
Power	STD: 120 Volt Option: 240 Volt
Warranty	2 Years Parts and Labour

Disclaimer

The Regency Elite™ is not a medical device.
No medical or health claims are made nor implied

Listen to what Health Practitioners are saying...

"We personally use the Regency Water Ionizer in our home and provide ionized water in our clinic, since it is essential to restoring and maintaining good health. A great aid in maintaining the proper pH of the body."

Dr. Russel Whetton, D.C., NMD, FIACA
Whetton Natural Health & Healing Center
Ogden, UT

"It is easy and common for body tissue to become too acidic. In an unbalanced terrain, fermentative breakdown is accelerated and overtaken by morbid evolutions, resulting in degenerative disease symptoms. Drink ionized water to help maintain the alkalinity of the blood, lymph, intracellular and extracellular fluids."

Dr. Robert Young, Ph.D, D. Sc., Author of pH Miracle & Sick and Tired...
Innerlight Biological Research Center, Alpine, Utah

"The antioxidant water penetrates into every cell of the body to protect DNA from damage and to reduce inflammation. It also alters the pH in the body, which is helpful in many diseases, including diabetes and cancer."

Dr. Zayd Ratansi, N.D.
HOC Health Center, Seattle, WA

"What I am telling the world is to drink Alkaline water in order to wash out acidic wastes, the universal cause of many adult diseases. In the twenty-first century home, a water ionizer will be a 'must' appliance in the kitchen."

Sang Whang, Engineer, Scientist, Inventor and Author of Reverse Aging
Miami, Florida

"Almost without exception, people who consume distilled water exclusively, eventually develop multiple mineral deficiencies. The ideal water for the human body should be slightly alkaline and this requires the presence of minerals like calcium, and magnesium."

The Danger of Distilled Water
Zoltan Rona, MD, MSc

- Chi Flow Swing Machine
- Portable Infrared Sauna
- Negative Air Ionizers
- Infrared Mineral Lamp

Regency Elite

The Regency Elite Water Ionizer easily installs to your faucet and will alter your tap water creating both Alkaline and Acidic water. To maintain or restore your body's natural pH balance for optimal health, drink restructured, ionized water which is rich in anti-oxidants and alkaline minerals. Ionized water helps reverse the effects of acid accumulation in the body, the root cause of degenerative diseases and aging. Allow your body to maximize its healing potential.

Acidosis

Just as acid rain in the environment damages our external ecosystem, so internal acids damage our internal ecosystem. Without knowing it, most of us consume diets high in acid forming foods. We also drink acidic beverages such as carbonated drinks, coffee, distilled and reverse osmosis water which add to this acid overload. This results in the loss of precious bone building minerals which are used for buffering these internal acids. Having realized that our internal acid load is a major factor behind all degenerative diseases, we encourage a diet high in alkalinizing foods and drinking Regency Elite ionized water.

Acid Causing Effects of Modern Lifestyle

Poor Diet
Lack of Sleep
Increased Stress
Insufficient Nutrients
Air and Water Pollution
Lack of Exercise or Excessive Exercise

Alkalinity

The Regency Elite can produce water that has an alkaline pH, without the addition of any chemicals. This is done through electrolysis, a process that separates the acid from alkaline minerals. There are 4 levels of alkalinity to choose from. When consumed, alkaline water helps to neutralize and flush out acid wastes that have accumulated as the result of an unhealthy diet, stress and pollution.

How are you feeling today?

The process of aging is the accumulation of waste products within our body. Some resulting symptoms of an Acidic body are Aches, Pains, Fatigue and Obesity. You can have the healthy body you want simply by reducing this acid buildup. This includes changing some basic habits, such as what you do, eat or drink. Drink Alkaline Water to feel better!

Wetter Water

The smaller hexagonal molecular structure resulting from electrolysis is what makes Regency Elite water wetter than tap or bottled water. These smaller clusters of water molecules are less than half the size of those found in tap water. The smaller cluster size gives the water excellent hydrating properties, high solubility and good cellular permeability.

Dr. Robert Young's New Biology states
"There is only one sickness
and one disease...
...the over acidification of the body"

Mineral Water

The Regency Elite does not add minerals to your water. This high tech appliance rearranges the healthy minerals that are native to your source water, according to their electrical charge. This is done through electrolysis. The positive or alkaline minerals are drawn to the negative electrode and the negative or acidic minerals are attracted to the positive electrode within this chamber. This separation is maintained by a special barrier. As a result, alkaline water could contain the essential calcium (Ca+), magnesium (Mg+), sodium (Na+) and potassium (K+) minerals while the acid water contains acidic compounds which have not been trapped in the filter.

Oxygen Enriched Water

Regency Elite water contains more oxygen than regular tap water. This added Oxygen varies according to the pH selected and is present in the form of alkaline hydroxide ions (OH-). The body makes use of the oxygen bound in the hydroxide compound when the aspirated oxygen (O2) runs low in the blood stream. This benefit will be most apparent during exercise and physical labor. It has been written that Ionized Water "may also lower blood pressure and help the heart work less hard". Quoted from: Reverse Aging, Sang Whang.

Anti-Oxidant Water

As a result of the electrolysis process, Regency Elite water has a negative oxygen reduction potential (ORP), or an affinity for the free radicals that attack cell tissue. Imagine not having to rely solely on supplemental antioxidants since your water will already contain an abundant supply.

Functionality

- Multi-stage filtration removes bacteria, chlorine and particles
- User selected pH levels or 'Purify' only mode
- Electronic overload protection
- Automatic and on demand clean cycles
- Digital filter life indicator

Benefits of Alkaline Water

Regulates blood pressure
Good antioxidant source
Adult disease control
Balance body pH
Reduce acidosis
Reverse Aging
Increased Energy
Urea stones dissolved
Cooked foods taste better
Helps digestive problems

Benefits of Acid Water

Extends the life of cut flowers
Promotes plant growth
Excellent hair rinse
Reduces acne
Mouth wash
Wounds heal faster
Soothes dry, itchy skin
Complexion enhancement
Sterilizes burns or heat rash
Relieves athletes foot, eczema

"The countless names of illnesses do not really matter. What does matter is that they all come from the same root cause... too much tissue acid waste in the body"

Theodore A. Baroody, N.D., D.C., Ph.D.

Drink Alkaline Water
